

Investment Signals

Monthly Pre-Decision Indicators Across 77 Priority Companies

Including 30 major Investment Promotion Projects

and 77 target companies selected by MOTIR

Tracking 5 leading indicators of Investment (Covering Pre-Decision Signals only)

5 LEADING INDICATORS OF INVESTMENT

1 Supply Chain & Geopolitical Risk

New suppliers, local sourcing and responses to geopolitical risk

2 Production Expansion & Geographical Diversification

New capacity, Asia-Pacific sites and feasibility studies

3 Capital Raising & Securing Liquidity

Bond and share issues, loans and credit facilities

4 Tech Ecosystem Partnerships (R&D)

Joint R&D, licensing, pilot projects and equity stakes

5 C-Suite Actions

Senior appointments, visits to Korea and site inspections

Investment Signals at a Glance

Signals found at the 77 companies during August 1–31, 2026. A highlighted cell marks an early plan or a preparatory step, not a committed or completed investment.

BUSINESS DEVELOPMENTS

Korea seeks investment in

Precipitated silica for fuel-efficient tires

Business news · product link not confirmed

Evonik now offers customers cradle-to-gate Life Cycle Assessment data for selected EUDRAGIT® functional polymers derived from its TÜV-certified method to support Scope 3 emissions reporting. The data is currently available for EUDRAGIT® L 100-55 and EUDRAGIT® L 30 D-55, with additional grades expected in early 2027, and the implementation of a new spray drying system at the Darmstadt site reduced the product carbon footprint of EUDRAGIT® L 100-55 by approximately 6 percent.

Business Developments by Product

Norsk Hydro

Non-ferrous metal recycling

Norway

Korea seeks investment in Non-ferrous metal scrap recycling

Developments in August

General Motors' 2026 Cadillac OPTIQ will feature a front bumper system made with Hydro CIRCAL, an advanced aluminum alloy composed of at least 75 percent post-consumer scrap produced at Norsk Hydro's recycling facility in Cassopolis, Michigan. Automotive supplier Shape Corp. will engineer and assemble the system to General Motors specifications.

HyProMag

Rare-earth magnet recycling

UK

Korea seeks investment in

High-purity rare earths recovered from end-of-life magnets

Developments in August

Mkango Resources has completed the acquisition of the Remloy rare earth magnet recycling business from Heraeus Amloy Technologies GmbH for €8 million in cash, with €5 million settled at closing and a remaining balance of €3 million payable on August 28, 2028. Remloy operates a plant in Bitterfeld, Germany, that recycles end-of-life rare earth magnets to produce neodymium-iron-boron alloy powders, backed by a target capacity of at least 500 tonnes per year and an approximately 345-tonne stockpile of raw materials at completion. David Bender has been appointed Managing Director of Remloy.

Source Press release · Mkango Resources (HyProMag parent) - News 2026.08.31

Nabtesco

Robot gearboxes

Japan

Korea seeks investment in

Robot gearboxes (reducers)

Developments in August

Sales of Nabtesco's precision reduction gears increased year-on-year, driven by favorable demand for industrial robots primarily from automobile manufacturers in China and South Korea and general industries.
