

Investment Signals

Monthly Pre-Decision Indicators Across 77 Priority Companies

Including 30 major Investment Promotion Projects

and 77 target companies selected by MOTIR

Tracking 5 leading indicators of Investment (Covering Pre-Decision Signals only)

5 LEADING INDICATORS OF INVESTMENT

1 Supply Chain & Geopolitical Risk

New suppliers, local sourcing and responses to geopolitical risk

2 Production Expansion & Geographical Diversification

New capacity, Asia-Pacific sites and feasibility studies

3 Capital Raising & Securing Liquidity

Bond and share issues, loans and credit facilities

4 Tech Ecosystem Partnerships (R&D)

Joint R&D, licensing, pilot projects and equity stakes

5 C-Suite Actions

Senior appointments, visits to Korea and site inspections

Investment Signals at a Glance

Signals found at the 77 companies during August 1–31, 2026. A highlighted cell marks an early plan or a preparatory step, not a committed or completed investment.

Business Developments by Product

Companies with no investment signal this month but with August news on the product Korea seeks from them. Cards marked "General company news" cover the company's main business instead. Any of these could turn into an investment signal.

Cytiva

Bioprocess equipment

USA

Korea seeks investment in

Cell culture and purification systems for biologics

Developments in August

Cytiva's GoSilico platform produced three thousand virtual simulations from five experiments, validating FDA Quality by Design standards during GMP operations at Mycenax Biotech.

Source Tech Times 2026.08.04

Amkor Technology

Semiconductor packaging & test

USA

Developments in August

Construction is underway on Amkor Technology's advanced packaging and test campus in Arizona, which is expected to become the first high-volume advanced packaging and test OSAT facility in the United States and create up to 3,000 new jobs.

Ouster

Robotics LiDAR

USA

Korea seeks investment in

LiDAR for robots

Developments in August

Ouster, Inc. announced that GUSS Automation plans to incorporate Ouster's Rev8 OS0 native color digital lidar sensors into its next-generation Autonomous Orchard Machine Fleet.

Source Press release - Ouster 2026.08.26

Business Developments by Product

Norsk Hydro

Non-ferrous metal recycling

Norway

Korea seeks investment in Non-ferrous metal scrap recycling

Developments in August

Norsk Hydro is supplying its Hydro CIRCAL recycled aluminum, an advanced alloy made from at least 75 percent post-consumer scrap produced at its Cassopolis, Michigan facility, for use in the front bumper system of General Motors' 2026 Cadillac OPTIQ electric vehicle.

Source Norsk Hydro - News / Newsroom 2026.08.05

Renishaw

Precision position encoders

UK

Korea seeks investment in Linear encoders

Developments in August

Renishaw launched its next-generation RLE interferometric laser encoders for motion control in semiconductor manufacturing. The company will showcase the new product family at SEMICON Taiwan 2026 in Taipei and SEMICON West 2026 in San Francisco.

Source Press release · Renishaw - Renishaw launches next-generation RLE interferometric laser encoders... 2026.08.26

Nabtesco

Robot gearboxes

Japan

Korea seeks investment in Robot gearboxes (reducers)

Developments in August

Nabtesco reported continued order growth for precision reduction gears and commenced customer deliveries of its newly launched RV mini.
