Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August — monitored for potential signal development.

Albemarle

Battery cathode materials

USA

Target item/tech **Cathode material lithium hydroxide/carbonate**

August global business trend

Albemarle announced its second-quarter 2026 results, reporting that Energy Storage net sales increased by 78% to \$1.3 billion driven by higher pricing. The company also stated that increased volumes from the Wodgina mine would partially offset the ramp delay at Talison CGP3 caused by a June 9 fire.

Source Albemarle - Newsroom / Newsroom / News 2026.08.05

Schott Pharma

Drug delivery & fill-finish

Germany

Target item/tech **Autoinjector/PFS fill-finish manufacturing**

August global business trend

Schott Pharma's business model revolves around high-performance primary packaging and delivery systems for injectable drugs, with a growing focus on polymer-based solutions that aim to support complex biologics and infusion therapies. The company introduced its next-generation polymer infusion syringe platform with an emphasis on recyclable packaging and reduced material usage compared with traditional designs.
