Target Companies Global Investment Signals Monitor

30 Major Investment-Attraction Projects (MOTIE) · 77 Target Companies
Five investment signals per company · Pre-confirmation indicators only

FIVE LEADING SIGNAL INDICATORS

- 1 **Supply Chain & Geopolitical Risk** Dependence reduction, diversification, regulatory risk, etc.
- 2 **Production Expansion & Diversification** APAC expansion reviews, feasibility studies, etc.
- 3 **Capital Securing & Financing** Large bond issues, equity raises, credit lines, etc.
- 4 **Tech Ecosystem Engagement (R&D)** Joint research, licensing, PoC matching, equity, etc.
- 5 **Strategic Executive Move** C-level moves, quiet visits, due-diligence signs, etc.

This Month's Signal Matrix

Investment signals (pre-confirmation) across the 77 target companies for August (2026.8.1~8.31). A highlighted cell marks a signal detected during the month; lagging data such as completed deals are excluded.

 Target tech

Virus validation and MCB/WCB characterization

Charles River is partnering with Medigen Vaccine Biologics Corp. to support Chemistry, Manufacturing, and Controls (CMC) activities for MVC's next-generation multivalent enterovirus vaccine using Next-Generation Sequencing (NGS). The collaboration focuses on characterizing and validating the virus seed bank to accelerate high-quality vaccine development and global regulatory readiness.

GLOBAL BUSINESS STATUS

 Target item

Robot LiDAR

Ouster announced that GUSS Automation, a wholly owned subsidiary of John Deere, plans to incorporate Ouster's next-generation REV8 digital lidar sensors into its autonomous orchard machine fleet. The integration aims to enhance precision autonomy and obstacle detection in challenging agricultural environments such as orchards and vineyards. Ouster's lidar technology provides reliable 3D depth data and environmental resilience under difficult operating conditions.

GLOBAL BUSINESS STATUS

Silicon anode material technology

Nexeon completed a £100m investment round backed by the National Wealth Fund, Korea Development Bank, and Honda Xcelerator Ventures to advance its silicon anode materials business. The funding supports the company's continued scale-up, the development of a UK pilot manufacturing facility, and the operation of its Si-C volume production facility in Gunsan, South Korea.

GLOBAL BUSINESS STATUS

 Target tech

Rare earth extraction from end-of-life permanent magnets

Mkango Resources has completed the acquisition of the Remloy rare earth magnet recycling business from Heraeus Amloy Technologies GmbH for €8 million. Through this transaction, Mkango gains the Remloy production facility in Bitterfeld, Germany, which recycles end-of-life rare earth magnets to produce neodymium-iron-boron alloy powders. This complements HyProMag's short-loop recycling process and Mkango UK's long-loop recycling process, significantly strengthening the rare earth supply chain and manufacturing ecosystem in Europe.

Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August — monitored for potential signal development.

Albemarle

Battery cathode materials

USA

Target item/tech Cathode material lithium hydroxide/carbonate

August global business trend

Albemarle reported \$1.3 billion in net sales for its Energy Storage segment in the second quarter of 2026, driven by higher lithium pricing. The company maintained its full-year sales volume outlook while demonstrating resilient operational performance.

Target item/tech

Robot reducer

August global business trend

Nabtesco announced its semiannual report for the first half of fiscal 2026, reporting that sales in the Component Solutions Business increased by 23.6% year-on-year to ¥45,521 million. The company noted that sales of precision reduction gears grew due to favorable demand for industrial robots, primarily from automobile manufacturers in China and South Korea.
