Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August. For companies exempt from the technology-link check, key business activity is shown and the card says so. Monitored for potential signal development.

Cognex

Machine vision & sensors

USA

Target item/tech **3D vision sensor**

August global business trend

Cognex highlighted new In-sight products including the 2800, L38, 3900, and 6900 during its earnings call to expand AI-enabled machine vision and unlock new use cases.

Source Google News: The Globe and Mail 2026.08.13

Moderna

Cell & gene therapy

USA

Target item/tech **Gene/cell therapy delivery vector and GMP raw material**

August global business trend

Moderna and Merck announced initial results from a late-stage clinical trial of the mRNA-based cancer vaccine intismeran involving over 1,000 melanoma participants. The combination treatment reduced the likelihood of cancer returning or spreading, and the companies plan to present the full data at an upcoming international medical meeting.

Item-Linked Global Business Trends

Norsk Hydro

Non-ferrous metal recycling

Norway

Target item/tech **Non-ferrous metal scrap recycling and utilization**

August global business trend

Norsk Hydro is supplying Hydro CIRCAL aluminium alloy, produced at its recycling facility in Cassopolis, Michigan, for the front bumper system of General Motors' Cadillac OPTIQ. The advanced alloy is composed of at least 75 percent post-consumer scrap, supporting material circularity and emission reductions in the mobility sector.
