

Investment Signals

Monthly Pre-Decision Indicators Across 77 Priority Companies

Including 30 major Investment Promotion Projects

and 77 target companies selected by MOTIR

Tracking 5 leading indicators of Investment (Covering Pre-Decision Signals only)

5 LEADING INDICATORS OF INVESTMENT

1 Supply Chain & Geopolitical Risk

New suppliers, local sourcing and responses to geopolitical risk

2 Production Expansion & Geographical Diversification

New capacity, Asia-Pacific sites and feasibility studies

3 Capital Raising & Securing Liquidity

Bond and share issues, loans and credit facilities

4 Tech Ecosystem Partnerships (R&D)

Joint R&D, licensing, pilot projects and equity stakes

5 C-Suite Actions

Senior appointments, visits to Korea and site inspections

Investment Signals at a Glance

Signals found at the 77 companies during August 1–31, 2026. A highlighted cell marks an early plan or a preparatory step, not a committed or completed investment.

Business Developments by Product

Norsk Hydro

Non-ferrous metal recycling

Norway

Korea seeks investment in Non-ferrous metal scrap recycling

Developments in August

General Motors' Cadillac OPTIQ will feature a front bumper system made with Hydro CIRCAL, an advanced aluminum alloy composed of at least 75 percent post-consumer scrap produced at Hydro's recycling facility in Cassopolis, Michigan. Hydro will supply the material, while Shape Corp. will engineer and assemble the front bumper system to GM specifications.

Source Norsk Hydro - News / Newsroom 2026.08.05

Siemens Gamesa

Offshore wind turbines

Spain

Korea seeks investment in Offshore wind turbines

Developments in August

Siemens Gamesa reported a positive quarterly result for the first time since fiscal year 2022 and is on track to reach break-even for 2026, with revenue rising significantly year-over-year due to an increase in the offshore business.

HyProMag

Rare-earth magnet recycling

UK

Korea seeks investment in

High-purity rare earths recovered from end-of-life magnets

Developments in August

Mkango Resources has completed the acquisition of the Remloy rare earth magnet recycling business from Heraeus Amloy Technologies GmbH for €8 million in cash, with €5 million paid at closing and a €3 million balance payable on August 28, 2028. Remloy operates a plant in Bitterfeld, Germany, that recycles end-of-life rare earth magnets to produce neodymium-iron-boron alloy powders, targeting a capacity of at least 500 tonnes per year. At completion, Remloy held a stockpile of approximately 345 tonnes of materials, and former co-Head David Bender was appointed Managing Director.

Source Press release · Mkango Resources (HyProMag parent) - News 2026.08.31

Nabtesco

Robot gearboxes

Japan

Korea seeks investment in

Robot gearboxes (reducers)

Developments in August

Sales of precision reduction gears increased year-on-year due to favorable demand for industrial robots mainly from automobile manufacturers in China and South Korea and general industries.
