Company Signals

30 Major Investment-Attraction Projects (MOTIE) · 77 Target Companies
Five investment signals per company · Pre-confirmation indicators only

FIVE LEADING SIGNAL INDICATORS

- | | | |
|---|---|--|
| 1 | Supply Chain & Geopolitical Risk | Dependence reduction, diversification, regulatory risk, etc. |
| 2 | Production Expansion & Diversification | APAC expansion reviews, feasibility studies, etc. |
| 3 | Capital Securing & Financing | Large bond issues, equity raises, credit lines, etc. |
| 4 | Tech Ecosystem Engagement (R&D) | Joint research, licensing, PoC matching, equity, etc. |
| 5 | Strategic Executive Move | C-level moves, quiet visits, due-diligence signs, etc. |

This Month's Signal Matrix

Investment signals (pre-confirmation) across the 77 target companies for August (2026.8.1~8.31). A highlighted cell marks a signal detected during the month; lagging data such as completed deals are excluded.

GLOBAL BUSINESS STATUS

Target item/tech

Robot LiDAR

Ouster announced that GUSS Automation, a wholly owned John Deere subsidiary, plans to incorporate Ouster's Rev8 OS0 digital lidar sensors into the next generation of its Autonomous Orchard Machine Fleet. Powered by L4 Ouster Silicon, the Rev8 OS0 sensors will provide high-resolution 3D point cloud data to enhance perception, navigation, and obstacle detection for autonomous orchard sprayers operating in complex agricultural environments.

Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August. For companies exempt from the technology-link check, key business activity is shown and the card says so. Monitored for potential signal development.

ASML

Semiconductor lithography

Netherlands

Target item/tech **EUV lithography equipment**

August global business trend

ASML reported second-quarter results featuring 9.33 billion in sales, a 54% gross margin, and 2.92 billion in net income, with new-system sales jumping to 86 machines. Management expects third-quarter revenue to reach between 11 billion and 12 billion.

Source Google News: Yahoo Finance 2026.08.26

Norsk Hydro

Non-ferrous metal recycling

Norway

Target item/tech **Non-ferrous metal scrap recycling and utilization**

August global business trend

Norsk Hydro is supplying its Hydro CIRCAL recycled aluminium alloy for the front bumper system of General Motors' 2026 Cadillac OPTIQ. The advanced alloy is composed of at least 75 percent post-consumer scrap produced at Hydro's recycling facility in Cassopolis, Michigan. This implementation demonstrates the use of recycled aluminium in demanding structural and safety-critical automotive applications.

Renishaw

Precision position metrology

UK

Target item/tech **Linear scale**

August global business trend

Renishaw has launched its new family of RLE interferometric laser encoder systems, comprising the RLE100, RLE200, and RLE300, designed to provide precision position feedback for advanced semiconductor manufacturing applications. The new systems offer enhanced metrology performance, modular plug-and-play architecture, and advanced diagnostics to meet the evolving requirements of semiconductor equipment manufacturers.

Source Official press release · Renishaw - Official RSS: Renishaw launches next-generation RLE... 2026.08.26

Item-Linked Global Business Trends

HyproMag

Rare-earth magnet recycling

UK

Target item/tech **Rare earth extraction from end-of-life permanent magnets**

August global business trend

Mkango Resources has completed the acquisition of the Remloy rare earth magnet recycling business from Heraeus Amloy Technologies GmbH for €8 million (US\$9.3 million) in cash. Remloy operates a commissioned production facility in Bitterfeld, Germany, which recycles end-of-life rare earth magnets via a melting process to produce NdFeB alloy powders. The acquisition creates significant operational and strategic synergies with HyProMag, supporting rare earth recycling and supply chain expansion in Europe.

Source Official press release · Mkango Resources (HyProMag parent) - News RSS 2026.08.31

Nabtesco

Robot precision drives

Japan

Target item/tech **Robot reducer**

August global business trend

Nabtesco reported that orders for precision reduction gears in its Component Solutions segment increased steadily, driven by strong demand across applications. The company also launched the RV mini as planned and has begun customer deliveries.
