0 detected · 45 not detected after official-source review · 32 insufficient coverage

Global Business Trends by Item

Companies with no signal among the five indicators this month, but with global business activity in August directly tied to their target item or technology. Monitored for potential escalation into a signal.

Australian Strategic Metals

Rare-earth magnet recycling

Australia

Target item / technology **rare earth extraction from end-of-life permanent magnets**

Global business trend, August

Energy Fuels announced it has completed its 100% acquisition of Australian Strategic Materials (ASM) through a members' scheme of arrangement. Following the deal, ASM shares were delisted from the NYSE American and the TSX effective August 28, 2026. ASM said the combination marks a major step in building a secure, leading Western rare earth supply chain.

Charles River

Bioanalysis & safety testing

USA

Target item / technology **virus validation and MCB/WCB characterization**

Global business trend, August

Charles River Laboratories announced a collaboration with Taiwan's Medigen Vaccine Biologics to support new vaccine development programs using next-generation sequencing (NGS). Medigen was the only domestic manufacturer to receive Emergency Use Authorization in Taiwan during the COVID-19 pandemic and has commercialized products including an Enterovirus 71 vaccine.

Boeing

Aircraft & clean propulsion

USA

Target item / technology **aerospace electric motor and high-power battery propulsion module**

Global business trend, August

Boeing announced that Archer will acquire its Wisk Aero, Insitu and SkyGrid subsidiaries, with Boeing investing in and collaborating with Archer. The deal aims to combine decades of capability in autonomy, electric vertical takeoff and landing (eVTOL) aircraft, and unmanned aircraft systems to build an end-to-end physical AI platform for aerospace and defense.

Global Business Trends by Item

Ouster

Robotics LiDAR

USA

Target item / technology **robot LiDAR**

Global business trend, August

Ouster said GUSS Automation, a wholly owned subsidiary of John Deere, plans to advance precision autonomy in high-value crops using its next-generation REV8 digital lidar. GUSS intends to deploy REV8 to improve precision and safety in autonomous orchard operations. REV8 is Ouster's 256-channel OS1 Max lidar built for autonomous agricultural robots.

NXP

Aerospace RF chips

Netherlands

Target item / technology **RF semiconductor for satellite communication and radar**

Global business trend, August

NXP announced that its Trimension Ultra-Wideband (UWB) ranging and radar solutions will be deployed across the BMW Group's fleet. The rollout will start with select 2026 vehicle programs and expand across BMW's lineup. NXP said its Trimension NCJ29D6 family allows automakers to use a single UWB system for multiple use cases, including presence detection.

Evonik Industries

Eco-friendly silica

Germany

Target item / technology **precipitated silica for eco-friendly tires**

Global business trend, August

Evonik reported second-quarter 2026 adjusted EBITDA of €630 million, up year over year. Supply-chain bottlenecks outside Europe, tied to the Middle East conflict, lifted volumes and prices, creating a windfall for the company.

Global Business Trends by Item

Siemens-Gamesa

Offshore wind turbines

Spain

Target item / technology **offshore wind turbine**

Global business trend, August

Siemens Energy said it has begun preparations to spin off its Transformation of Industry business area into a standalone company. The company described its portfolio of renewable-energy technologies, including gas and steam turbines, hydrogen-powered hybrid plants, and generators and transformers.

Nexeon

Battery anode materials

UK

Target item / technology **silicon anode material technology**

Global business trend, August

Nexeon said it secured £52.6 million (\$70 million) from the UK's National Wealth Fund, completing a £100 million (\$133 million) investment round. The round also included new investors Korea Development Bank and Honda Xcelerator Ventures. The company said the funding will support expansion of its domestic operations, strengthen the UK's battery supply chain and create jobs.
