☒ AI-confirmed signal ☐ Needs review, unconfirmed ☐ Reviewed, no signal ☐ Insufficient evidence, revisit

① Supply Chain & Geopolitical Risk · ② Production Expansion · ③ Capital Securing · ④ Tech Ecosystem (R&D) · ⑤ Strategic Executive Move

2 AI-confirmed · 12 needs review · 22 reviewed without signals · 41 insufficient evidence

Review Scope and Omissions

Information period August (2026.8.1~8.31)

363 of 364 articles for the month reviewed · 1 failed review

44 candidates whose recheck or evidence check did not complete are not shown as AI-confirmed (investment signals appear as 'Needs review · recheck pending'; business trends are left out). They are reviewed again next run

Company status (77): 2 AI-confirmed · 12 needs review · 22 reviewed without signals · 41 insufficient evidence

Why evidence is insufficient (companies, may overlap)

Collection incomplete	11	Recheck not completed	9
Signal candidate awaiting publication date	2	Articles held without date or body	12
Judgement deferred for insufficient evidence	22	Title only, body not collected	13

- Candidates left out of the body pending a publication date: 7 investment signals · 2 business trends
- Collection jobs: 64 companies completed · 13 incomplete. This tracks whether collection finished and is a different measure from 'insufficient evidence' in the matrix.

Articles not reflected because review failed

- **Skyworks** [2025 SWKS Annual Report](#)

'Needs review' marks a candidate whose company and indicator event were confirmed but which misses one condition; it is not an AI-confirmed signal. No full external fact-check of source articles was performed. Per-article decisions and errors are in the run artifact (status.json, reviews/diagnostics).
