Global Investment Signals

Monitor

30 Major Investment-Attraction Projects (MOTIE) · 77 Target Companies
Five investment signals per company · Pre-confirmation indicators only

FIVE LEADING SIGNAL INDICATORS

- 1 **Supply Chain & Geopolitical Risk** Dependence reduction, diversification, regulatory risk, etc.
- 2 **Production Expansion & Diversification** APAC expansion reviews, feasibility studies, etc.
- 3 **Capital Securing & Financing** Large bond issues, equity raises, credit lines, etc.
- 4 **Tech Ecosystem Engagement (R&D)** Joint research, licensing, PoC matching, equity, etc.
- 5 **Strategic Executive Move** C-level moves, quiet visits, due-diligence signs, etc.

This Month's Signal Matrix

Investment signals (pre-confirmation) across the 77 target companies for August (2026.8.1~8.31). A highlighted cell marks a signal detected during the month; lagging data such as completed deals are excluded.

Item-Linked Global Business Trends

Siemens-Gamesa

Offshore wind turbines

Spain

Target item/tech Offshore wind turbine

August global business trend

Siemens Gamesa reported a positive result for the first time since fiscal year 2022 in the third quarter of fiscal year 2026 and is on track to reach break-even for 2026, making a significant contribution to overall financial improvement.

Source Siemens-Gamesa - Siemens Energy Investor Relations / Investor Relations 2026.08.05

Renishaw

Precision position metrology

UK

Target item/tech Linear scale

August global business trend

Renishaw has launched its next-generation RLE interferometric laser encoder product range, comprising the RLE100, RLE200, and RLE300 systems designed for advanced motion control in semiconductor manufacturing. The new family delivers enhanced metrology performance, flexible design integration, and improved serviceability with a modular architecture and real-time diagnostics.

Source Official press release · Renishaw - Official RSS: Renishaw launches next-generation RLE... 2026.08.26

Nexeon

Battery anode materials

UK

Target item/tech Silicon anode material technology

August global business trend

Nexeon has achieved ISO 9001:2015 certification for its production facility in Gunsan, South Korea, establishing a benchmark standard for quality management systems. The certification marks an important milestone in the development of the Gunsan operation, supporting the company in delivering consistently high-quality silicon-carbon materials to leading battery cell and automotive customers.
