Target Companies

Global Investment Signals

Monitor

30 Major Investment-Attraction Projects (MOTIE) · 77 Target Companies
Five investment signals per company · Pre-confirmation indicators only

FIVE LEADING SIGNAL INDICATORS

- 1 Supply Chain & Geopolitical Risk** Dependence reduction, diversification, regulatory risk, etc.
- 2 Production Expansion & Diversification** APAC expansion reviews, feasibility studies, etc.
- 3 Capital Securing & Financing** Large bond issues, equity raises, credit lines, etc.
- 4 Tech Ecosystem Engagement (R&D)** Joint research, licensing, PoC matching, equity, etc.
- 5 Strategic Executive Move** C-level moves, quiet visits, due-diligence signs, etc.

This Month's Signal Matrix

Investment signals (pre-confirmation) across the 77 target companies for August (2026.8.1~8.31). A highlighted cell marks a signal detected during the month; lagging data such as completed deals are excluded.

Company	①	②	③	④	⑤

Company Signal Details

Charles River

Bioanalysis & safety testing USA

1	Supply Chain & Geopolitical Risk · risk events, responses	No signal this month	—
2	Production Expansion & Diversification · site reviews	No signal this month	—
3	Capital Securing & Financing · bonds, equity, credit lines	No signal this month	—
4	Tech Ecosystem Engagement (R&D) · joint research, PoC Charles River and Medigen Vaccine Biologics announced a collaboration to characterize — The companies also plan to explore additional collaboration opportunities across other vaccine programs. Source Official press release · Charles River - News Releases / Press Releases 2026.08.20		
5	Strategic Executive Move · C-level moves, due diligence	No signal this month	—

GLOBAL BUSINESS STATUS

 Target tech

virus validation and MCB/WCB characterization

Charles River is collaborating with Medigen Vaccine Biologics to characterize and validate the virus seed bank for MVC's next-generation multivalent enterovirus vaccine. Charles River will use advanced analytical platforms including NGS to support CMC activities, aiming to generate data for IND applications and future global clinical development. The companies plan to extend collaboration to other vaccine programs.

Ouster

Robotics LiDAR

USA

1	Supply Chain & Geopolitical Risk · risk events, responses	No signal this month	—
2	Production Expansion & Diversification · site reviews	No signal this month	—
3	Capital Securing & Financing · bonds, equity, credit lines	No signal this month	—
4	Tech Ecosystem Engagement (R&D) · joint research, PoC GUSS Automation — a wholly owned John Deere subsidiary, announced plans to integrate Ouster's next-generation Rev8 OS0 digital lidar into its autonomous orchard machine fleet, strengthening collaboration in the robotics lidar technology ecosystem. Source Official press release · Ouster - News Releases / Press Releases 2026.08.26		
5	Strategic Executive Move · C-level moves, due diligence	No signal this month	—

GLOBAL BUSINESS STATUS

Target item

robot LiDAR

GUSS Automation, a wholly owned John Deere subsidiary, announced plans to integrate Ouster's Rev8 OS0 digital lidar into its autonomous orchard machines. This integration aims to enhance navigation and obstacle detection for autonomous agricultural vehicles, reflecting Ouster's expansion into agricultural autonomy.

HyproMag

Rare-earth magnet recycling

UK

1	Supply Chain & Geopolitical Risk · risk events, responses	No signal this month	—
2	Production Expansion & Diversification · site reviews	No signal this month	—
3	Capital Securing & Financing · bonds, equity, credit lines	No signal this month	—
4	Tech Ecosystem Engagement (R&D) · joint research, PoC	Announced technical and grant funding collaboration with the University of Birmingham and Pforzheim University Source HyproMag - Mkango 2026 News / News Archive RSS 2026.08.31	
5	Strategic Executive Move · C-level moves, due diligence	No signal this month	—

GLOBAL BUSINESS STATUS

Target tech

rare earth extraction from end-of-life permanent magnets

Acquired Remloy, securing a business in Bitterfeld, Germany that recycles end-of-life rare earth magnets via a melting process to produce NdFeB alloy powders. The process is complementary to HyProMag's short loop recycling, with expected synergies in feedstock supply and technical collaboration.

Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August — monitored for potential signal development.

Moderna

Cell & gene therapy

USA

Target item/tech **gene/cell therapy delivery vector and GMP raw material**

August global business trend

Moderna's Merck-partnered mRNA cancer vaccine met its Phase 3 goal, and the stock nearly doubled.

Source Google News: BioSpace 2026.08.19

Albemarle

Battery cathode materials

USA

Target item/tech **cathode material lithium hydroxide/carbonate**

August global business trend

Albemarle reported its Q2 2026 results. Energy Storage (lithium) segment net sales rose 78% year-over-year to \$1.28 billion, with sales volume of 65 kT LCE and average realized price of \$19.53/kg LCE. Full-year Energy Storage sales volume is expected at 225-235 kT LCE, with increased Wodgina volumes partially offsetting the Talison CGP3 fire impact.

Applied Materials

Advanced packaging

USA

Target item/tech **nm-scale W2W hybrid bonding equipment**

August global business trend

Applied Materials announced that UC Berkeley will join its EPIC Center as a research collaborator. The EPIC Center provides an industry-scale R&D environment with access to cutting-edge chipmaking equipment, aiming to accelerate material and process innovations and speed commercialization. The facility is on track to become operational in 2026.

Item-Linked Global Business Trends

Nexeon

Battery anode materials

UK

Target item/tech **silicon anode material technology**

August global business trend

Nexeon produces silicon anode materials for high-energy-density lithium-ion batteries. With UK National Wealth Fund backing, it is developing a pilot manufacturing facility in the UK and has brought online a volume production facility for silicon-carbon materials in Gunsan, South Korea.
