GLOBAL BUSINESS STATUS

Target item/tech

Aerospace electric motor and high-power battery propulsion module

Boeing has signed definitive agreements to transfer its Wisk Aero, SkyGrid, and Insitu subsidiaries to Archer Aviation. Under the transaction, Boeing will take a stake in Archer and establish an ongoing collaboration and technology-sharing arrangement. The partnership combines Wisk's pioneering eVTOL and autonomy technologies with Archer's platform to advance the aerospace and defense sector.

GLOBAL BUSINESS STATUS

Target item/tech

Robot LiDAR

Ouster launched Rev8, the world's first native color LiDAR sensor, in the second quarter of 2026. Customer adoption was reflected in several orders exceeding \$1 million from major industry leaders, including the world's largest heavy machinery manufacturer. In addition, the company secured a significant contract with the Utah Department of Transportation for its largest LiDAR deployment to cover several hundred intersections across the state.

GLOBAL BUSINESS STATUS

Target item/tech

Silicon anode material technology

Nexeon has completed its latest investment round totalling £100 million (\$133 million), backed by the National Wealth Fund, Korea Development Bank, and Honda Xcelerator Ventures. The funding will support the development of a UK-based pilot manufacturing facility and the expansion of its advanced manufacturing technology unit. Additionally, Nexeon recently brought online the world's first volume production facility for silicon-carbon materials in Gunsan, South Korea.

Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in August. For companies exempt from the technology-link check, key business activity is shown and the card says so. Monitored for potential signal development.

Cognex

Machine vision & sensors

USA

Target item/tech **3D vision sensor**

August global business trend

Cognex highlighted new In-sight products, including the L38, 2800, 3900, and 6900, aimed at expanding AI-enabled machine vision and unlocking new use cases. The company reported strong end-market demand and continuous growth across semiconductor and logistics sectors during its earnings call. These product innovations support broader customer adoption and reinforce the company's operating execution.

Moderna

Cell & gene therapy

USA

Target item/tech **Gene/cell therapy delivery vector and GMP raw material**

August global business trend

Moderna and Merck announced initial results from a late-stage trial for an experimental melanoma treatment using an mRNA-based cancer vaccine. For over 1,000 participants who had their melanoma surgically removed, the treatment reduced the likelihood of their cancer returning or spreading.

Source Google News: WBUR 2026.08.25

Albemarle

Battery cathode materials

USA

Target item/tech **Cathode material lithium hydroxide/carbonate**

August global business trend

Albemarle reported \$1.3 billion in Energy Storage net sales and 65 kilotons LCE in sales volume for the second quarter of 2026. Increased output from the Wodgina mine partially offset the delay in the Talison CGP3 ramp due to a fire, with full-year sales volumes expected to range between 225 and 235 kilotons LCE.

Item-Linked Global Business Trends

Air Products

Chemical platform feedstock

USA

August global business trend

Air Products is currently pursuing the NEOM green hydrogen project in Saudi Arabia, which is expected to supply up to 1.2 million tons per year of renewable ammonia. The company has also finalized a marketing and distribution agreement with Yara International for renewable ammonia generated from the project.

Source Google News: Yahoo Finance 2026.08.31

Qualcomm

Autonomous driving chips

USA

Target item/tech **Autonomous vehicle IMU/RF/baseband chip**

August global business trend

Qualcomm won an expanded agreement with BMW to become the lead compute silicon provider for next-generation ADAS and digital cockpit, and raised its automotive annualized run rate target to roughly \$7 billion exiting fiscal 2026.

Source Google News: 24/7 Wall St. 2026.08.31

Norsk Hydro

Non-ferrous metal recycling

Norway

Target item/tech **Non-ferrous metal scrap recycling and utilization**

August global business trend

Norsk Hydro will supply Hydro CIRCAL, an aluminium alloy composed of at least 75 percent post-consumer scrap produced at its Cassopolis, Michigan recycling facility, for the front bumper system of General Motors' 2026 Cadillac OPTIQ. Automotive supplier Shape Corp. will engineer and assemble the bumper system to GM specifications.

Item-Linked Global Business Trends

Renishaw

Precision position metrology

UK

Target item/tech

Linear scale

August global business trend

Renishaw launched the next-generation RLE interferometric laser encoder systems, including RLE100, RLE200, and RLE300, for advanced motion control in semiconductor manufacturing. The new encoder family offers enhanced metrology performance, modular plug-and-play architecture, and improved serviceability to help semiconductor equipment manufacturers achieve higher positioning accuracy and reduced maintenance overheads.

Nabtesco

Robot precision drives

Japan

Target item/tech

Robot reducer

August global business trend

Nabtesco reported that orders for precision reduction gears continued to steadily increase in the second quarter of 2026, rising 11% quarter-on-quarter and 23% year-on-year. In line with the rising order volume, the capacity utilization rate for the Tsu Plant reached 85% and the Changzhou Plant reached 100% in the second quarter of 2026. Additionally, the company started customer deliveries of the RV mini as planned.
